

The Next Generation Replacement for  
M&S and NuTone 3, 4 and 6 Wire Systems

easy installation

Homeowners will appreciate the dmc's easy installation. The dmc's unique retrofit frames eliminate the need to repair drywall in most homes, are paintable to match any room décor and can be oriented either horizontally or vertically.

the new dmc retrofit

### **dmc Main Unit and Combo Unit with 6-Disc Changer**

The dmc retrofit system is designed to provide updated functionality and styling in homes with existing intercom systems. Engineered to run on existing wires the dmc retrofit will replace most older M&S Systems and NuTone intercoms. Unique retrofit finish out frames make installation easy by eliminating the need to repair drywall. The dmc1 also offers an optional 6-disc CD changer. The refined appearance and technological advancements make the dmc1 a "crystal clear" choice for replacing older intercom systems.

#### **System Specs**

- Supports 15 room stations and 3 door speakers
- Frequency response: 20Hz - 20KHz
- 30W (RMS) maximum output power
- 2 music source inputs
- 8AM / 8FM music presets
- Stereo upgrade path with optional power amp
- Speaker remote volume / source control
- Intercom only / door release feature
- Automatic on/off feature

### **dmc Room Station**

The smaller room stations offer exceptional sound for both music and intercom communications. With elegant style and the unique finish out frame, the dmc room stations will enhance the sound in any room. Plus the finish out frame is paintable allowing the frame to match any room's décor. (Note: new room stations are required when retrofitting an intercom system.)

#### **Room Station Specs**

- Standard room station with volume control, talk, and listen (4 and 6-wire only) functions
- Remote scan room station with volume, talk, listen (4 and 6-wire only), remote volume and source control, privacy feature (6-wire only)
- Door release functionality
